

# *The Two of Us*

Some things are complicated  
Others are obvious  
Some things you can't deny  
Just look at the two of us

Some people get lost in emotions  
Others say love's not enough  
I believe it's all you need  
Just look at the two of us

So many years together  
So many dreams come true  
Our loving family  
Each day I'm so happy  
I found you

Anything good takes patience  
Quality can't be rushed  
To make it right you've got to take your time  
Just look at the two of us

So many years together  
So many dreams come true  
Our loving family  
Each day I'm so happy  
I found you

After the years have faded  
Others have given up  
We'll laugh as we smile and say  
Just look at the two of us  
Just look at the two of us
